

### Lower Waikato Riparian Restoration

Lower Waikato River Enhancement Society Inc  
 info@waikatorivercare.co.nz  
 Website

To restore a riparian ecosystem on one of the margins of the Lower Waikato River.

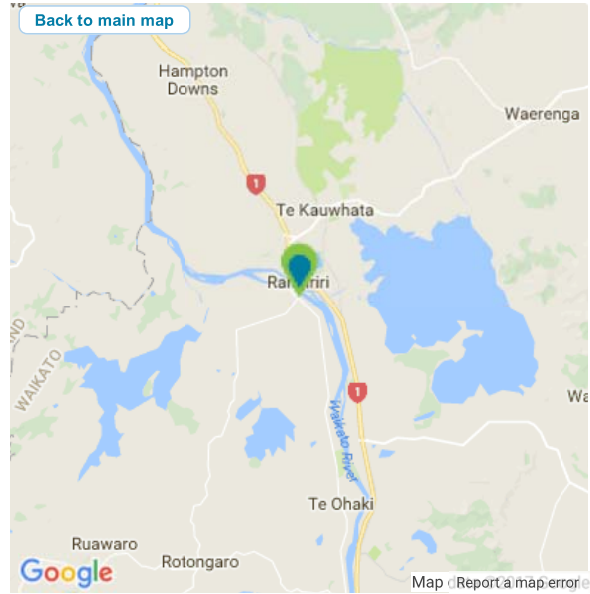

This project will restore riparian ecosystems at one key site along the margins of the Lower Waikato River.

The way this project and work is implemented aims to optimise biodiversity outcomes, contribute to improvements in river health and wellbeing, include benefits for cultural outcomes (i.e. significant sites, cultural resources, and connectedness with the River).

The project includes improving access and recreation opportunities, enhancing the aesthetics and landscape values and developing capacity for future restoration work and on-going site maintenance.

The project received funding from the Waikato River Authority (WRA 12-045)
