To extend on the Mangakotukutuku Stream Care Group's development plan upstream in Peacocks Road.

The objectives of this project are to extend on the Mangakotukutuku Stream Care Group (MSCG) development plan upstream operating in Peacocks Road, Sandford Park.

This project will develop and implement a parallel restoration plan downstream with particular emphasis on matauranga Maori to restore and protect the indigenous biodiversity and ecological integrity of the Mangakotukutuku Stream, an urban tributary.

This project has received funding from the Waikato River Authority (WRA 11-043)
