 marie@cambridgeprimary.co.nz

To extend Cambridge Primary School's riverbank enhancement project from the previous year and make the area recreationally/leisurely useable

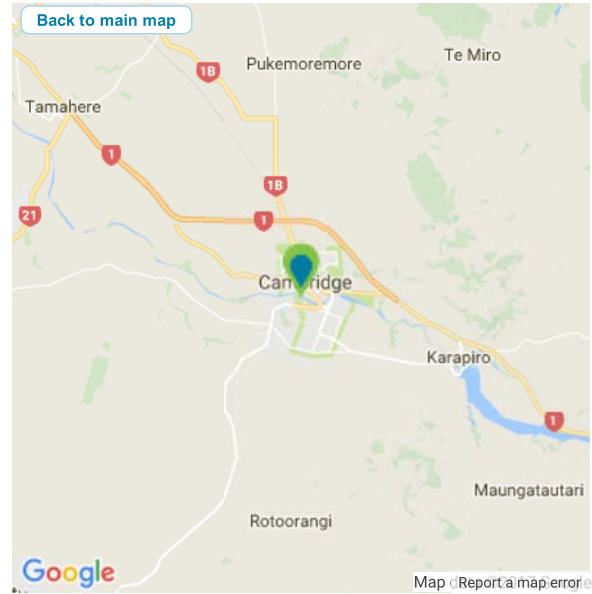

We plan to build a wooden stage with lighting and power in our newly developed riverbank reserve area. This will be used by the school and community alike.

The community will have access to the stage when using the riverbank area. The stage will compliment the picnic tables that are going in in the near future. We are in the process of building permanent stairs to further make safe the access way and envisage more native planting in the near future.

This will be an ongoing process, whereby we will be continually keeping the area clean, always looking to plant more native trees and plants as required and keep the area well maintained and user friendly. We have already greatly developed the area.

This project has received funding from the Waikato River Authority (WRA 12-023)
