This is a continuation of the Te Awa River Ride project and involves the creation of the section of the cycleway from the Avantidrome near Cambridge to Mystery Creek.

The Te Awa River Ride will be a 70km walk/cycleway which travels along the banks of the Waikato River between Ngaruawahia and Horahora.

The vision of the project is to celebrate the Waikato River by linking community, culture and ecology through active experiences.

The project began in 2010 and is being constructed in stand alone sections, four of which have been completed and another is currently underway. This part of the project is for the section of cycle way from the Avantidrome near Cambridge through to Mystery Creek. WRA 15-006.
