

Minute from the Hearing Panel – regarding:

Hearing Panel's request for further information from Fonterra Cooperative Group Ltd (Fonterra) in relation to additional nitrogen metrics – 25th%, 30th%, 50th% and 60th% figures.

Mr James Allen for Fonterra provided evidence at the Block 2 hearing. At paragraph 7.5 Mr Allen stated:

An indication of the 75th percentile figures for the FMUs, and the number of dairy farms above this level are shown in the following figures (Figures 2 – 5), based on Fonterra data.

Figures 2 to 5 set out the 75th% number expressed as kgN/ha, and the number of dairy farms above the 75th% for the four FMUs

The Hearing Panel (Panel) would appreciate Mr Allen providing the same metrics as in paragraph 7.5 and the figures 2 – 5, expressed as the 25th%, 30th%, 50th% and 60th% figures.

The Panel requests this information be provided either before, or at the same time as any legal submissions for Fonterra's appearance at the Block 3 hearings (18 September 2019).

Greg Hill

Chairman of the Hearing Panel.
