

BALANCED SOILS = HEALTHY PLANTS

Balanced Soil Composition

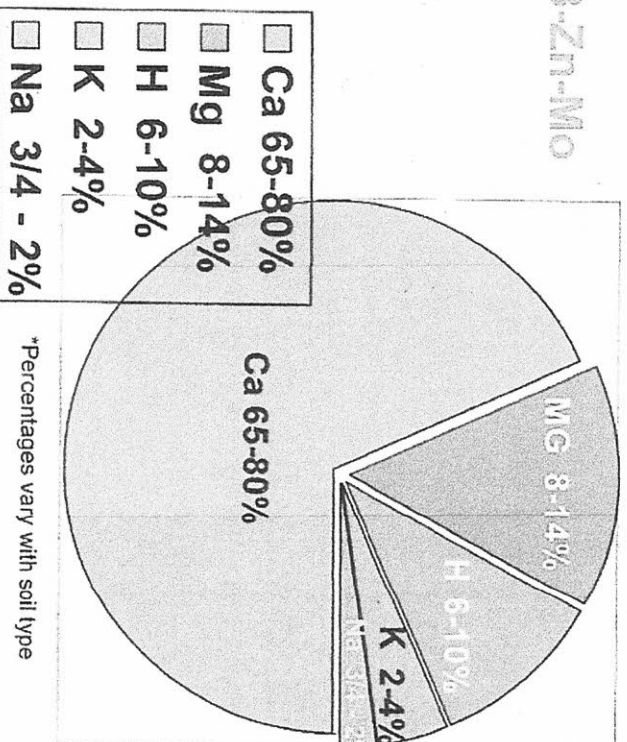

Soil Components

Excess Nutrients Cause Other Nutrient Deficiencies

- Excess Nitrogen Levels tie up K-B-Zn
- Excess Phosphorus Levels tie up N-Ca-Fe-Cu-B-Zn-Mo
- Excess Potassium Levels tie up Ca-Mg-B-Zn
- Excess Calcium Levels tie up P-Mg-Fe-B
- Excess Magnesium Levels tie up N-P-K-Ca
- Excess Sodium Levels tie up K-Ca
- Excess Chlorine Levels tie up K

Balanced Chemical Composition

*Percentages vary with soil type

Muriate of Potash KCl (0-0-60) is 47% Chlorine!
