**Subject:** Block 2 HortNZ

Morning Steve

As I was reviewing HortNZ's evidence in chief for Block 2 I noticed rather an important typo in the evidence of Chris Keenan at paragraph 36. It is probably evident from the context but the first sentence should read - "There are also **no** sound reasons why commercial vegetable production should **not** be provided for as an exception."

If you could pass this onto the Panel that would be much appreciated.

Regards

Helen
